## Breakthrough Pool Styles That Impress

Experience, quality, and innovation combined to give you an incredible pool, without sacrificing design.

Extensive market research with current customers and computer-aided design have both contributed to the different pool styles developed for you at Leisure Pools. Kerry Pain with over 25 years in the Australian residential fiberglass swimming pool market has made it his mission to provide you with innovative and structurally solid designs.

Your pool is not only functional in design and beautiful in appearance, but it will suit your home whether your it's contemporary or traditional, whether your area is large or small, there will be a style, size and color to suit your needs (and budget) perfectly.

Kerry Pain with fiberglass pool model "It's not about offering 50 types of pools, it is about offering classic and innovative styles that work well in residential environments" says Kerry when talking about the new Leisure Pools styles. "Once you have the style that fits the homeowner's preference, then we look to pool size because people have different usage requirements for the pools backyard sizes and budgets."

"After style and size have been determined then it's a question of choosing the most suitable color. Color theory is so vitally important in achieving a stunning look in your backyard" says Kerry.
